

Today's Voice for Dementia

.....

Making a Difference

One Mind at a Time

Teepa Snow, Occupational Therapist & Dementia Expert

As one of America's leading educators on dementia, Teepa Snow's philosophy is reflective of her education, work experience, medical research, and first hand caregiving experiences. Working as an Occupational Therapist for over 35 years her wealth of experience led her to the development of a Positive Approach to Care® technique and training model that now helps families and professionals worldwide working or living with dementia or other brain changes.

Sonata is proud to share that we have successfully completed Positive Approach's Community Culture Change Training Program implementing Teepa Snow's Positive Approach to Care® techniques and philosophies. We are making a difference for staff, residents, and families as a Dementia Knowledgeable Community. The entire Sonata Senior Living

interdisciplinary team, including administration, direct care staff and indirect care staff such as dining or housekeeping receive initial and ongoing enhanced training from our in-house PAC Certified Trainer. Foundation leaders and trainers act as mentors and daily instructors to ensure we facilitate positive outcomes.

Teepa is an advocate for those living with dementia and has made it her personal mission to help families and professionals better understand how it feels to be living with the challenges and change. Her company, Positive Approach, LLC, was founded in 2005 and offers education to family and professional caregivers all over the world. For more information, visit **www.TeepaSnow.com**. Serenades by Sonata has embraced Teepa Snow's Positive Approach to Care® philosophy and training.
