Hello Serenades Families!

As you know there is a storm brewing, and we initiated our Emergency Management Plan. We are all here and will hunker down with the residents to help ensure their safety. Some of the Directors (including myself) will be here in case of any urgent needs. At this time, it looks like the storm will not be hitting us directly, but we possibly will get some outer bands from the storm. We have several different activities in place for the residents as well as for the staff and their families. This is one part that I personally enjoy as it allows us to bond together as a team while we weather the storm.

Thank you for allowing us to serve our residents as well as you by taking good care of them daily and during the storm. Should you have any questions or concerns, please feel free to reach out and stay tuned to our **Facebook** page for any updates.

Warmly,

Lynette Smith

Executive Director
